## LION ROARS AT MADERO

Warred by British  
Legation.

The Protection of King's  
Subjects in Guerrero Is  
Ordered.

Two Hundred Convicts Are  
Sent North to Reinforce  
Gen. Huerta.

Good Conditions on the West  
Coast—Train Breaks the  
Blockade.

AMERICAN TROOPS IN THE MEXICO CITY. May 16.—(Special to THE TIMES.) The Minister of War, General Alvaro Obregón, today reported to the Government of Oberholser, Minister of War, that all American troops in the State of Guerrero had been disbanded and sent north. This action followed a demand from the British Legation, it

was stated, to withdraw all Federal forces from the Southern States. These prisoners, like the hundreds sent to reinforce Huerta in the north, are termed "volunteers" of the Federal army, but they were sent to the point where they are intended to serve under guard of a detachment of the First Cavalry.

### AMERICANS WORRIED.

Americans here are asking the question, "What will become of the country should the Madero government be overthrown and these forces be turned loose?"

This is what happened when Madero overthrew the Diaz government, and the miners, soldiers and workers in every part of the republic today are the result.

**SWEEPING DOWN UPON DURANGO.**

(The Times Wire Service, Cable, Boston and Overland News Service.)

WASHINGTON, May 16.—Two thousand rebels, flushed with an amazing victory over the government forces at Piedras Negras, are swooping down on Durango, which has been left desolate by reports received by the Department of State this afternoon.

The sudden turn in the tide of victory toward the revolutionists came as a surprise to officials of the War Department who have been watching the progress of the Federal troops in the past few days. It is believed the insurgents did not crush the Federalists without a terrible fight, and that they were wholly surprised by the native general who won the State of Durango unguarded, being confident of routing the enemy.

Unofficial reports of other reverses of the Federalists have been received, but the rebels apparently have taken

were taken on the same train, but their munitions of war were loaded when men went to the engine, while ten regular soldiers covered each of the cars containing the "volunteer" convicts.

All priests in the Federal district are about amputed now, the convicts having been "conscripted" to join the Federal army. The same process was evolved by former President Diaz during the Madero revolution, and was loudly condemned by Madero. The shipment of this last batch to Huerta shows how desperate is the need of Federal troops in the north. Within the four days, 200 convicts have been here, for military service in Texas, and again the Mexican forces in the Southern States. These prisoners, like the hundreds sent to reinforce Huerta in the north, are termed "volunteers" of the Federal army, but they were sent to the point where they are intended to serve under guard of a detachment of the First Cavalry.

## CHOICE OF MAN FOR KEYNOTE.

*His Name Will Be Made Known Tomorrow.*

*Chairman New Takes Hold at the Coliseum.*

*Chicago Is Attiring Herself for the Convention.*

*The Times Writers, Cal., Boston and Overland News Service.*

**CHICAGO.** May 16.—Choice of a temporary chairman of the Republican National Convention that will meet June 14 in the Coliseum building is the big problem to be taken up Saturday at 11 a.m. session of the Sub-Committee on Convention Arrangements. In view of the bitter Taft-Roosevelt battle for the Presidential nomination, the selection is considered a delicate question at this time. Present indications are that the man will be chosen over Roosevelt before the result is known of the life-and-death struggle between the President and Col. Roosevelt in Ohio, the home State of President Taft.

The Ohio results will not be known until Tuesday night. This contest will determine it is figured, whether or not Mr. Taft will be able to obtain a renomination. If the temporary chairman is named Saturday, he will be chosen over Roosevelt, it is believed. There is further that the national committee members are "standing by" for the President's nomination.

**NOW TAKES HOLD.**

Harry S. New of Indiana, chairman of the Committee on Arrangements, who took hold today in the Coliseum Annex, would not give any hinting of the name of the chairman. Under the rules it is the responsibility of the chairman to name the man in mind and have it put in the national committee and the sub-committee to make the final selection.

The temporary presiding officer seems to be the "keynote" of the session. It is pointed out by some that there is a possibility of the chairman being "off-key" should the Roosevelt followers eventually control.

Col. New plans to remain in Chicago through Saturday after the convention to look after the details like the allotment of tickets, the arrangements of the convention hall seats, the various sergeants-at-arms and other effects of the meeting. He has no permanent headquarters in the Coliseum Annex, where the National Committee, with full membership, will meet on June 4 to make the final arrangements.

**DETAILS OF WORK.**

Subsequent to the choice of the chairman, Col. New is in the detail work. He is expected to take over the Coliseum building about Monday or Tuesday after the household show exhibits are removed.

"We will have ample time to get the hall in convention shape," said Col. New. "Arthur Brown, the architect, has his plans on paper, and I expect to look them over, and they will be passed upon Saturday by the sub-committee. We will be able to say 'Go ahead,' and it will be fast work from then on."

Col. New, still pinning his faith to the Taft standard, predicts a lively convention. Incidentally, in discussing the possibility of women delegates to the Chicago gathering, he decided women should be bound to come after the continental stage is set.

"The time is coming when woman's demand for her ballot will be answered," said Col. New.

**METS DEFEAT AT EVERY TURN.**

**DEMOCRATIC FORCES DOSE IN MONTANA.**

Out and Out Independence of the President and the State's Delegates Will Go to Chicago Decidedly to Vote for Taft First, Last and All the Time.

**INT'L. DAY WIRE TO THE TIMES.** LEVINGTON (Mont.). May 16.—Roosevelt forces were defeated at every turn in the Republican State convention held here today. From the issues raised in the debate of competing delegations to the election of a national committeeman from Montana they were unsuccessful.

The threats of a half were dissipated by the urging of calm and deliberate action on the part of conservative Roosevelt leaders.

The Montana delegation, eight in number, will go to Chicago with a recommendation to use every effort to bring about the renomination of President Taft. The Taft forces assert that these delegations will be Taft men, first, last and all the time. Roosevelt received 421 votes to their opponents' 223.

The platform adopted by the convention today after a bitterly-contested fight is an out and out endorsement of the Taft policies and administration. It reviews briefly the accomplishments of the administration.

T. A. Marlow of Helena was elected national committeeman.

**MEANS A RISE IN SILVER.**

Financial Experts in Peking Say Payment of International Loan Will Affect White Metal.

**PEKING.** May 16.—Financial experts say the international loan which is being paid in silver will affect further rise in the price of that metal. The banks advanced \$60,000 each (\$1,000,000) to the half of it in Peking and half in Shanghai.

## ROOSEVELT IS DOOMED.

(Continued From First Page.)

## TAFT'S MAJORITY IN THE CONVENTION.

(Continued From First Page.)

**THE TIMES, WIRE, CALIF., BOSTON AND OVERLAND NEWS SERVICE.**

**DARK HORSE NOT CONSIDERED.**

They are banking heavily now, however, on the consideration that will be given to the declared impossibility of electing a candidate who has served two terms in the White House. A few superficial observers are inclined to a dark horse candidacy in this convention. But the deepest students of politics give no credence to a dark horse.

A very puzzling deadlock after the balloting begins will be the only thing that can bring forth a third candidate, in the opinion of the latter.

A question that was here raised yesterday is whether there will be an anti-third term ticket, if Roosevelt receives the regular nomination of Chicago. It will be recalled that the strong opposition to Col. Roosevelt do not care to discuss this time for the obvious reason that it is not well to anticipate bolts and the like. But there is just as good ground for believing right now that a third ticket will be placed in the field in case Roosevelt wins at Chicago, as there is in thinking that the Roosevelt forces will bolt if they are beaten in the regular convention. Viewed either side, this is one of the things that must await the final decision.

Col. Roosevelt and his lieutenants are counting on winning many contests and having many votes that have been cast in the Taft column, in making their present great claims. From all that can be learned here, the Roosevelt side will not win anywhere near all the contests it has precipitated.

**OPPOSITION TO THIRD TERM.**

That Roosevelt can be defeated for the nomination on the third term is in, spite of the fact that the presidential election will still be held in November.

Under the rules it is the

responsibility of Chairman New to choose the man. He said he would not go further than to suggest some names, but he had in mind some in the Roosevelt camp, and the national committee members are "standing by" for the President's renomination.

**DETAILS OF WORK.**

**INVITE DEATH  
ON HIGH SEAS.**

*Three Men Commit Suicide  
from Army Transport.*

*Thomas at San Francisco  
After Fateful Voyage.*

*Water Tender Has His Skull  
Crushed in a Quarrel.*

**MAN A. P. HENRY WINS TO THE TIMELINE**  
SAN FRANCISCO, May 16.—Three men committed suicide by leaping into the sea from the deck of the United States army transport Thomas, and another was beaten nearly to death in board the vessel during the trip to the Orient, when, under orders, when the government demanded payment of \$1,000,000.

A young water tender whose skull was crushed with a gun in the forecastle yesterday afternoon, is in the United States marine hospital in a serious condition. L. Lopez, a coal passer, with whom he had quarreled and who is believed by the officers of the Thomas to be Henly's assailant, is in custody. The first man to leap into the sea was a Philippine member of the crew, who jumped overboard while the vessel was en route to its way from San Francisco to Portofino. After the incident, the Thomas had discontinued Vancouver, B.C., and San Fran was off the Oregon coast. John Prentiss, who had been confined to the detention ward on board, took from his attendants and buried himself over the side. His body was recovered and shipped to relatives in Seattle.

Henly's death was followed by the suicide of A. C. O'Callahan, an engineer, who, after the opening of the mine after a fight with several of the crew. Both men were members of the Filibuster Infantry.

**INDIA RICE PROCESS**

*Indians in Shanty College Hatchets  
Inducted into India With Use of  
Suffocating Acid.*

The New Western, Calif., Indians and their wives have been inducted into the Imperial Valley, Calif., and into the State Railroad Commission.

It is estimated that the new tariffs will mean a saving to shippers and consumers of \$150,000 a year. They must go into effect on or before June 13.

The decision was filed by Commissioners Estheman, Loveland and Gorley, who constituted the entire board at the time the case was heard. In statement given out tonight, the commission said:

"The high freight rates into the Imperial Valley have been a constant source of complaint since that rich section began developing into one of the gardens of the State. Investigation revealed a condition which the commission believed called for speedy correction."

"It was found that the rate on flour between Los Angeles and Beaumont was \$1.40 per ton, while to Banning, which is 10 miles farther west, it was \$4.50 per ton, a ratio of 90 cents per ton, which is in excess of the actual local rate between Beaumont and Banning. Six miles farther to Cabazon, the rate is increased to \$4.80 per ton, which is 40 cents per ton in excess of the locals. From Cabazon to Flings, a distance of four miles, the commodity rate is increased to 66 cents per ton, which is 11 cents in excess of the combination of locals from Beaumont. Several miles beyond Flings at Whitewater gravel pit, 193 miles from Los Angeles, there is a rate of 40 cents per ton for flour as a subrate, and this rate is blanketed for 150 miles to Yuma, Ariz."

The commission goes on to quote further inequalities, which it says extend to the use of petroleum and its products, and adds:

"The commission did not complete its investigation as to the reasonableness of the rates on cotton and cottonseed products, again, which complaint was made, but a subsequent inquiry will be made. Widespread changes were authorized in both the grain and commodity rates, covering the entire schedule under which freight moves in and out of the Imperial Valley."

The Imperial Valley decision is the third readjustment of rates effected by the commission this year. The first was the cut between Los Angeles and San Pedro, amounting to \$240,000 a year.

The second was the San Joaquin Valley case, affecting both the Southern Pacific and San Joaquin Fe. amounting to a cut of \$750,000.

The San Pedro decision was contested, but reaffirmed by the court. The San Joaquin Valley decision was not questioned.

### Lower Rates To The Valley.

Order Issued by the State  
Railway Commission.

Saving of Many Thousands  
to Freight Shippers.

Third Readjustment in the  
Published Tariffs.

MAN A. P. HENRY WINS TO THE TIMELINE

SAN FRANCISCO, May 16.—A reduction ranging from 15 to 20 percent in the freight rates charged by the Southern Pacific into and out of the Imperial Valley was issued today by the State Railroad Commission. It is estimated that the new tariffs will mean a saving to shippers and consumers of \$150,000 a year. They must go into effect on or before June 13.

The decision was filed by Commissioners Estheman, Loveland and Gorley, who constituted the entire board at the time the case was heard. In statement given out tonight, the commission said:

"The high freight rates into the Imperial Valley have been a constant source of complaint since that rich section began developing into one of the gardens of the State. Investigation revealed a condition which the commission believed called for speedy correction."

"It was found that the rate on flour between Los Angeles and Beaumont was \$1.40 per ton, while to Banning, which is 10 miles farther west, it was \$4.50 per ton, a ratio of 90 cents per ton, which is in excess of the actual local rate between Beaumont and Banning. Six miles farther to Cabazon, the rate is increased to \$4.80 per ton, which is 40 cents per ton in excess of the locals. From Cabazon to Flings, a distance of four miles, the commodity rate is increased to 66 cents per ton, which is 11 cents in excess of the combination of locals from Beaumont. Several miles beyond Flings at Whitewater gravel pit, 193 miles from Los Angeles, there is a rate of 40 cents per ton for flour as a subrate, and this rate is blanketed for 150 miles to Yuma, Ariz."

The commission goes on to quote further inequalities, which it says extend to the use of petroleum and its products, and adds:

"The commission did not complete its investigation as to the reasonableness of the rates on cotton and cottonseed products, again, which complaint was made, but a subsequent inquiry will be made. Widespread changes were authorized in both the grain and commodity rates, covering the entire schedule under which freight moves in and out of the Imperial Valley."

The Imperial Valley decision is the third readjustment of rates effected by the commission this year. The first was the cut between Los Angeles and San Pedro, amounting to \$240,000 a year.

The second was the San Joaquin Valley case, affecting both the Southern Pacific and San Joaquin Fe. amounting to a cut of \$750,000.

The San Pedro decision was contested, but reaffirmed by the court. The San Joaquin Valley decision was not questioned.

## MARY DINNERS OF BRIDGE MEN.

*Witnesses Tell of Them at "Steel Trust" Trial.*

*Denial that Prices Are Fixed  
"Twist Soup and Nuts."*

*All the Independents Have  
a Different Opinion.*

**NY. A. P. NIGHT WIRE TO THE TIMES;** NEW YORK, May 14.—While no agreement or understanding to maintain prices was reached at the May dinner of the steel manufacturers, the meeting was considered a success according to the testimony of John Topping, chairman of the Republic Iron and Steel Company, today at the hearing of the Federal suit to dissolve the United States Steel Corporation.

Practically the whole day's session was devoted to "price" understandings. The "steel trust," counsel sought from one witness that there recently been formed an organization of independent manufacturers and steel manufacturers, with objects which appeared to be similar to those which the "trust" claimed for the Gary dinners. It was made known that this organization, called the Bridge Builders' Society, was investigated by the government with results that the society was a clear till.

John Sterling Dows, head of the Knoxville Bridge Company, independent, testified that the society was organized about a year ago to prevent independent manufacturers from uniting and that one of its articles was perfect unanimity as to furnishing such information as to bids, terms, prices and tonnage as may be reasonably required.

"And while you are exchanging this information, calling each other your names, bids and tonnage, your company still goes on?" he asked.

"Yes, it does," said Dows.

"But when you left your meetings had no understanding that you were to sell at common prices and that you were to give notifications if you intended to change them?" did you put in Judge Dickinson, for the government.

"There was no such understanding," said the witness.

He also admitted that the American Bridge Company, which has been in conjunction with other subsidiaries of the steel corporation, had an advantage over independents, and that the last twelve months, while the latter have been increasing, the former have not, and the independents were able to run only from 40 to 50 per cent. of capacity.

The defense in rebuttal of the government's charges that the corporation is a monopoly grew stronger as the witness gave a statement that there were nearly 400 independent bridge and structural steel concerns now doing business.

The hearing adjourned until Tues-

**AKINS PASTOR COURSE.**

*Commissioner to Retire By Steep Dog  
Is Undergoing Treatment to  
Get Ready to Go to the West;*

**SAN JUAN,** May 14.—(Exclusive) Senator J. C. Collins, a local contractor, is undergoing treatment to cure him of a stony dog bite he received here and searching for people who can a stony dog bite him a few more now. Collins has partially identified a dog belonging to A. Everett of Cupertino, as the one which bit him. The dog is a stony of rabies at the expense of Dr. F. J. Brown, the city veterinarian. He hopes to have his identification confirmed.

Everett's ranch adjoins that of Senator C. C. Collier, the millionaire banker, and Everett's dog was bitten by a bloodied Airdale terrier, belonging to Collier. The Airdale has since died and Dr. Brown has received letters from the State chemist in San Francisco, who has determined that the dog had rabies. The Airdale bit six dogs as well as Everett's dog before dying. These puppies are untrained and are being cared for by Everett for the development of disease, which seems to have gained something of a foothold in this valley. They will probably be killed. The fees from pedigree stock and are very valuable.

**HUGHES THIRD HIGH  
MAN FIRST BALLOT.**

**NY. A. P. NIGHT WIRE TO THE TIMES;** MINNEAPOLIS, May 14.—Out of 264 candidates, one man was elected bishop by the general conference of the Methodist Episcopal Church here today. Homer C. Stultz, candidate of the Western Conference, of St. Paul, Minn., was elected. The first to be elected was Dr. George E. Warren, of New York, who was the second to have the honor of being elected on the first ballot after the two-thirds vote cast. Dr. Matthews received 577—forty-four more than necessary to elect. Immediately he was declared elected. The call to the pulpit was accepted by Dr. Henry White Warren and W. M. McDowell escorted him to the platform.

The next high men were D. G. Dewey, of Boston; W. H. Brewster, of Cleveland; C. L. W. Shantz, of Chicago; R. G. Cook, New York; R. E. Jones ( negro ), New Orleans; P. J. McConnell, Green Bay, Wis.; W. N. Ladd, of Kenosha, Wis.; and Andrew Giles, Minneapolis, Minn., 216.

Due to the scattering vote on the first ballot it is believed any one may be elected on the second ballot. This will be announced tomorrow.

Under a suspension of the rules, the Committee on Episcopacy reported their decision that eight bishops be elected. The report was adopted and the election was taken. The report was adopted, and after adoption of the rules regulating balloting, the first ballot was taken. It is expected that two, and possibly three, ballots may be taken tomorrow.

Charles E. Locks of Los Angeles was twenty-fourth on the list, getting 100 votes. F. G. Brown, of Portland, Oregon, was sixth on the list, with a vote of 115, and is likely to come into view later, as there is much opposition to electing Dr. Hughes. Benjamin Young of Portland, Ore., received 107 votes. There is no question but that either Dr. Hughes or Dr. Bevard will be elected. The conference is determined to give the Pacific Coast a

## PASADENA PASTOR LIKELY TO BE ELECTED BISHOP.

**Established Rule May Be Broken to Elevate the Rev.  
Matt S. Hughes, Brother of Bishop E. H. Hughes of  
San Francisco, at the Methodist General Conference.**

**Panama-Pacific Exposition Commended.**

(THE TIMES WIRELESS, CABLE, EASTERN AND OVERLAND NEWS SERVICE.)

**M**INNEAPOLIS, May 14.—The United States in making the Panama exposition the most representative and comprehensive ever held in the United States.

With the opening of this Panama, one cannot be elected. His brother in Bishop E. H. Hughes of San Francisco. Dr. Matt S. Hughes has swept the delegates off their feet by his remarkable preaching and it now seems certain that he will be elected a bishop.

The conference passed the following resolution concerning the Panama exposition at San Francisco:

Whereas, the United States Congress has determined to hold an international world-wide exposition in San Francisco in 1915;—Therefore, the completion of the Panama Canal, the greatest achievement in civil engineering in the history of modern civilization; and,

Resolved, second, that the present conference recommends the proposal to the Methodist Episcopal Church South, and to the various Protestant denominations for co-operation.

**Double His Salary.**

## NEW SUPERINTENDENT OF COAST LIGHT SERVICE.

(BY DIRECT WIRE TO THE TIMES.)

**W**ASHINGTON, May 14.—(Exclusive) Otto Wallander, keeper of the Taquima Bay Life-Saving Station, Newberg, Ore., has been appointed to be superintendent of the life-saving station division of the Pacific Coast embracing all stations on the California, Washington, Oregon and Mexican coast. The promotion is the result of a competitive examination held in San Francisco recently, participated in by most of the keepers of the Pacific Coast stations. Wallander made the highest average and captured the plum. As keeper of Taquima Bay his salary is \$1200 annually. The new position pay \$1300 annually.

"There is no better or more able man than Wallander in the whole service," declared Kimball.

**Helpless.**

## SUBMARINE HARD AGROUND ON EGG HARBOR SHOALS.

(BY PIERCE GALLAGHER.)

(THE TIMES WIRELESS, CABLE, EASTERN AND OVERLAND NEWS SERVICE.)

A last word in the building of panted porpoise—the armed minnows of marine warfare—is pounding a submerged sand spit in the shoal water of Great Egg harbor, poking her blunt nose and plunging her rotund belly deeper and deeper as she dives and pinches her on her shifting bed. Late tonight the wind shifted until it caught the exposed waist of the fish hawk, which was the last to be recovered from the deck of the Great Egg harbor life-saving station. The life boat had been turned around some 300 pounds of water ballast, which eased her frolics and the strain on her ribs. At last reports she was sandlocked as fast as though it from, but still seaworthy.

Fourteen of her crew were taken off after her sister signalized distress to the Great Egg harbor life-saving station. The captain, chief electrician, chief engineer, assistant engineer and one deck hand returned to help. The gallant four who stood by the call of Joe Hand, which shows that not all the deck hands of the Hand family are of the stamp of Penniman's Cooper's kindred, finally got the boat off the sandbank and the submarine of the sand bank will likely reach her early in the morning. Meanwhile the captain and his mates of the shoal berth will have time to sleep and will be ready to pass the edge of town.

Capt. Danneheuer said he would not leave the boat until he knew whether she was going to get off or leave her bones in the sand.

With the sun again in the fog, the G. B. got on her way from New Haven, Conn., to Bridgeport, Conn., strong and are dressed and ready to pass her trials.

## SEATTLE MAN ELECTED.

*Is Awarded Highest Honor in City of Presbyterian General Assembly by Being Chosen Moderator.*

*Rev. A. F. Nease Elected to the Times.*

**LOUISVILLE (Ky.), May 16.—**The moderatorship, the highest honor in the gift of the 124th general assembly of the Presbyterian Church in the United States of America, in session, went on the first ballot today to the Rev. Dr. Mark Allison Matthews, pastor of the First Presbyterian Church of Seattle, Wash. Out of 805 votes cast, Dr. Matthews received 415—464 being necessary to elect.

Election of the moderator overshadowed in interest the sermon of the retiring moderator, the Rev. John C. Clegg of Indianapolis, who declared that the church is the living vital force it has been through the ages. He warned his hearers that danger lies not in too little practical Christianity, but in neglect of its spiritual function.

Most of the nominal membership of the assembly, 900, is expected by tomorrow, while members of affiliated organizations, various visiting delegations, brought the attendance already to 2500.

Tonight the commissioners celebrated the Lord's Supper, the rite of consecration of bread and wine. Dr. Joseph D. Murrell of Brooklyn, N. Y., administering the bread, and the Rev. Edward A. Wicher of San Anselmo, Cal., administering the cup.

**ROOSEVELT SUBMITS CLAIM.**

*Says He Has Five Hundred and One  
Delegates to a Conference.*

*TOLEDO (Ohio), May 16.—*Of the delegates already elected, I have 501," said Col. Roosevelt today. He said by his statement of yesterday that he had more than 500 delegates and was confident he would be nominated on the first ballot at Chicago.

The third day of Col. Roosevelt's Ohio campaign took him from Greenville to Toledo. He made a speech at the state fair and had as little time for rest as on previous days.

Col. Roosevelt was told that President Taft would dispute his claim as to delegates and the commissioners presented him with a reinforcement statement.

The Roosevelt column foots up \$61. Under the heading "for some other candidate," are placed 345 delegates, while eighty-four are listed as uninterested and thirty-eight as unenlisted.

"I have gone over this table in minute detail," said Col. Roosevelt, "and I consider it a guarded underestimate of our strength."

**Long Arm.**

## SHIPPERS WIN SUIT.

*Interstate Commerce Commission Awards Twenty-four Dollars to a Los Angeles Firm.*

(THE TIMES, WIRELESS, CABLE, EASTERN AND OVERLAND NEWS SERVICE.)

**WASHINGTON, May 16.—**The Interstate Commerce Commission has decided in favor of the Pacific Coast Packing Company of Los Angeles in a suit against the Wells, Fargo Company. The Simpson company shipped a carload of eggs from Kansas City to Los Angeles and was charged on the basis of fifty-five pounds to the case. It was alleged that the actual weight was fifty-three pounds to the case. The court ruled that the difference was due to shrinkage. Compensation was awarded as prayed for to the amount of \$24.

**RESTRAINT OF ALLEGED  
ALUMINUM TRUST SOUGHT.**

**Government Begins Action Against Aluminum Company of America Setting Up Monopoly—Asks Injunctions Against So-called Unlawful Contracts and Combinations—Control of Industry Is Claimed.**

(BY A. P. NIGHT WIRE TO THE TIMES.)

**PITTSBURGH, May 16.—**The Federal government filed an antitrust suit against the Aluminum Company of America, which will be the basis for an agreed decree designed to restrain the so-called aluminum trust from monopolizing the manufacture of aluminum and its products, including cooking utensils.

In a petition to equity to the United States court for the Western District of Pennsylvania, the company is charged with being a monopoly restraining interstate and foreign commerce in violation of the Sherman Act. It is declared to have acquired a substantial control of the aluminum industry in the United States, and to have charged unreasonably high prices and profits on its products.

The dissolution of the corporation is the subject of the petition, and it is asked to impose minimum injunctions against alleged unlawful contracts combinations, conspiracies and practices.

The government concedes that the company's ownership of more than ninety-five per cent. of the known deposits of bauxite (base of aluminum) in the United States and Canada; more than 70 per cent. of the aluminum produced in the United States; controls the manufacture and sale of over 50 per cent. of aluminum castings in this country used primarily in the automobile industry, and more than 40 per cent. of all aluminum products and articles of aluminum, substantially 100 per cent. of the crude and refined aluminum for the United States and Canada; more than 70 per cent. of the aluminum produced in the United States; controls the manufacture and sale of over 50 per cent. of aluminum castings in this country used primarily in the automobile industry, and more than 40 per cent. of all aluminum products and articles of aluminum for the United States and Canada; more than 70 per cent. of the aluminum produced in the United States; controls the manufacture and sale of over 50 per cent. of aluminum castings in this country used primarily in the automobile industry, and more than 40 per cent. of all aluminum products and articles of aluminum for the United States and Canada; more than 70 per cent. of the aluminum produced in the United States; controls the manufacture and sale of over 50 per cent. of aluminum castings in this country used primarily in the automobile industry, and more than 40 per cent. of all aluminum products and articles of aluminum for the United States and Canada; more than 70 per cent. of the aluminum produced in the United States; controls the manufacture and sale of over 50 per cent. of aluminum castings in this country used primarily in the automobile industry, and more than 40 per cent. of all aluminum products and articles of aluminum for the United States and Canada; more than 70 per cent. of the aluminum produced in the United States; controls the manufacture and sale of over 50 per cent. of aluminum castings in this country used primarily in the automobile industry, and more than 40 per cent. of all aluminum products and articles of aluminum for the United States and Canada; more than 70 per cent. of the aluminum produced in the United States; controls the manufacture and sale of over 50 per cent. of aluminum castings in this country used primarily in the automobile industry, and more than 40 per cent. of all aluminum products and articles of aluminum for the United States and Canada; more than 70 per cent. of the aluminum produced in the United States; controls the manufacture and sale of over 50 per cent. of aluminum castings in this country used primarily in the automobile industry, and more than 40 per cent. of all aluminum products and articles of aluminum for the United States and Canada; more than 70 per cent. of the aluminum produced in the United States; controls the manufacture and sale of over 50 per cent. of aluminum castings in this country used primarily in the automobile industry, and more than 40 per cent. of all aluminum products and articles of aluminum for the United States and Canada; more than 70 per cent. of the aluminum produced in the United States; controls the manufacture and sale of over 50 per cent. of aluminum castings in this country used primarily in the automobile industry, and more than 40 per cent. of all aluminum products and articles of aluminum for the United States and Canada; more than 70 per cent. of the aluminum produced in the United States; controls the manufacture and sale of over 50 per cent. of aluminum castings in this country used primarily in the automobile industry, and more than 40 per cent. of all aluminum products and articles of aluminum for the United States and Canada; more than 70 per cent. of the aluminum produced in the United States; controls the manufacture and sale of over 50 per cent. of aluminum castings in this country used primarily in the automobile industry, and more than 40 per cent. of all aluminum products and articles of aluminum for the United States and Canada; Pasadena  
BOARD OF TRADE  
GIVES BANQUET.Commercial Body Enjoyes  
Speeches and Dinner.Senator Flint Pays Glowing  
Tribute to Southland.Teachers Make Demand for  
Increase in Salary.*Editor of The Times, H. S. Fair Oaks avows.*  
PARADISE, May 17.—The mark was left several chapters farther on in the book of Pasadena's history at the close of the 1912 annual banquet of the Pasadena Board of Trade, which was held last night at the Hotel Maryland.

In a strong address former Senator Frank P. Flint told of wonderful things that are to come to the city and State. A. G. Gould, with "Why I live here," told something of the last thirty years, and Flint, whose subject was "Indians of the Panama Canal on the Pacific Coast," concerned himself principally with the present and the future.

"Our harbors have been of no benefit to us in the past," he said. "The Pacific Ocean has been as much a monopoly of the railroads as the rails extending to the Atlantic Ocean. The situation has now been reversed due to the predominance of the sea and the character of the people. Now that is all changed."

"The only harbor that has been able to handle business here has been the Pasadena. Today the Pasadena is not alone the commerce; it did twenty years ago. This is all to be changed in the twinkling of an eye. In my mind the change that has taken place in the last thirty years will not compare with what will come in the next thirty years. I say it thoughtfully and after giving it much consideration."

"We may expect a rate of less than one-half the rates we believe it will cost to do business in the East at a rate that will greatly increase our business. There is no reason why the trade of Mississippi Valley points should not be tributary to the Pacific Coast."

Athens. If we can do this it means that the Pacific Coast cities will become great commercial cities like the great commercial cities of the East."

Over 300 were present and the speakers were highly appreciated. Dr. John Willis Baer presided as toastmaster, and the invocation was by Rev. A. R. Tillington. Frank N. G. Tyrrell of Los Angeles, who was to have been one of the speakers, was unable to attend.

## TEACHERS WANT MORE PAY.

With a declaration that they are receiving smaller salaries than teachers in several other parts of Southern California, and that the remuneration is not commensurate with the services rendered, Pasadena teachers are asking for an increase in pay. A petition has been presented to the Board of Trade signed by nearly every teacher in the school department, from the kindergarten instructors to the teachers of the High School.

The increase asked for amounts to about \$500 a year in the instance of grammar school teachers. The members of the board have taken the matter under advisement. A reply will probably be given within a few days.

DATE IS CONSIDERED.

As the result of conferences over the question of an increase in the supply of water for the city, Mayor Thorne announced yesterday that June 10 is now set as the date for the election of the City Council, and others, as the date of a proposed water bond election.

This proposal will very likely be voted on one way another before the City convenes next Tuesday.

Burdette Moody, who has been at work for several months appraising the holdings of the different water companies in the city, has come to his home, and is now ready to submit his report to the Council. The companies that it refers to are the Pasadena Lake Vineyard Land and Water Company, the Pasadena Land and

Water Company, and the North Pasadena Land and Water Company.

The report has already been discussed informally by members of the Council.

## PROMINENT WOMAN DIES.

Word has reached the city of the death in San Francisco yesterday of Mrs. Leontine Gachon Lowe, wife of Prof. T. S. C. Lowe, one of the best-known oilmen of the city, and for whom Mt. Lowe was given the name it bears. She was 77 years of age. Death resulted from an operation that she underwent in San Francisco a short time ago. She had lived in Pasadena for twenty-five years.

Prof. Lowe, who is in the East now so ill that he will be unable to attend the funeral, Mrs. Lowe leaves eight sons and daughters. They are Mrs. Edna Wright and granddaughters Lowe, Mrs. Leontine Lowe, Mrs. Lowe, Mrs. Frances, Mrs. Ida Haug of Berkeley, Mrs. Augustine Brownback of Norristown, Pa., Mrs. Zoo Brews of Chattanooga, Tenn., and Zobielet of New York.

Funeral services will be held at 1:30 o'clock tomorrow afternoon at St. James' Church, corner of Fremont Avenue and Monterey street, in the hills.

## REPUBLIC TO BENEFIT.

Through the efforts of John S. McGeorge, next Sunday afternoon's performance of the Merchant of Venice will be given to benefit for the George Junior Republic at Chinatown.

The audience will have been

drawn to the production of the play and the character of the person.

The affair will be a society event and a number of box parties are being arranged.

## TO TAKE DOWN POLES.

Members of the City Council are working on plans to establish a district within the confines of which all poles supporting trolley wires will be ordered down. The proposed ordinance will probably be voted on next week.

The Pacific Electric railroad will be asked to attach its trolley support wires either to trees or to ornamental iron posts.

The proposed district comprises Fair Oaks and Raymond avenues from Green street to Holly street.

## CITY BRIBE.

Friends of A. E. Edwards, cashier of the First National Bank of Pasadena, are supporting him for the office of president of the California State Bankers' Association which meets at Long Beach next week.

Mr. and Mrs. Frank May left yesterday for El Paso, Tex. May has been reappointed a member of the Board of City Commissioners.

Mrs. Julia G. Norton, aged 75 years, was found dead in bed yesterday at her apartment in the Broadway Building. Death was caused by a heart attack.

Robert B. Newby, a prominent resident of the city, died yesterday at his home, No. 527 East Washington street, at the age of 63 years. He came to Pasadena twelve years ago.

He leaves a widow and six children. Funeral arrangements have not been made.

## TEACHERS WANT MORE PAY.

With a declaration that they are receiving smaller salaries than teachers in several other parts of Southern California, and that the remuneration is not commensurate with the services rendered, Pasadena teachers are asking for an increase in pay. A petition has been presented to the Board of Trade.

George Forkel of 412 North Vernon avenue, while riding a bicycle, was struck by northbound Altadena car at the corner of North Fair Oaks avenue and Union street, at 8:30 o'clock last night. He was severely bruised about the body and suffered a number of internal injuries. He was taken to the Receiving Hospital and thence to the Pasadena Hospital.

Wadsworth sells paints  
Hotel Vista del Arroyo, Pasadena.  
Suburban property in beautiful La Canada Valley. H. L. Hayman.

## FRUIT MAN RESIGNS PLACE.

George Atwood of Covina will move to Orange and Engage in the Citrus Industry.

COVINA, May 16.—The resignation of George N. Atwood as manager and secretary for the Covina Citrus Association has just been announced by the board of directors. Mr. Atwood has been in this position for ten years. The reason for his resignation is not known. He will go to Orange where he is interested in orange property. The action was hastened because of the ill health of his wife, who is now living in Orange. Mr. Atwood will retire in June. His successor has not yet been named.

## DATE IS CONSIDERED.

As the result of conferences over the question of an increase in the supply of water for the city, Mayor Thorne announced yesterday that June 10 is now set as the date for the election of the City Council, and others, as the date of a proposed water bond election.

This proposal will very likely be voted on one way another before the City convenes next Tuesday.

Burdette Moody, who has been at work for several months appraising the holdings of the different water companies in the city, has come to his home, and is now ready to submit his report to the Council. Monrovia  
INVESTED WITH  
ROYAL SCEPTRE.Queen Florence in Charge of  
Monrovia's Destinies.Impressive Ceremony Marks  
Opening of Carnival.Suburban Town Will Devote  
Period to Pleasure.

MONROVIA, May 16.—Beneath the stars, incandescent in their opaque turquoise vault, Queen Florence was crowned tonight in the hall of the Monrovia Yacht Club.

The ceremony was a coronation of the king of mirth and fun, subjects to take the kingdom of mirth and fun, in memory of bonds forever these coming days of springtime carnival.

In anticipation of the coronation, auto parties from neighboring cities began to arrive early in the evening and long before the time set for the royal pageant the squares surrounding the park were packed with spectators.

Promptly at 8 the queen-to-be passed through a line of courtiers from her palace for the day to the throne room, where the coronation was to be held.

Preceding her was a tiny page bearing the diadem on a pillow and following her were the ladies in waiting with their respondent trains up and down the platform.

Following her were the ladies in waiting with their respondent trains up and down the platform.

The costumes chosen for the evening pageant had been planned in such detail and was so intense in setting and execution that at times it make believe nature was to be surpassed and that there was hardly any to be surpassed and genius obscured.

When the herald's cry, "The Queen comes, the Queen comes," rang down the line of procession a queen-like atmosphere filled the hall.

Then came the queen with the bejeweled diadem, saying:

"Queen Florence, the first in the name of your devoted and loyal subjects, the Queen of the Monrovia Yacht Club, the Queen and her cortage were met by President Neelandas representing the Merchants' Association, the givers of the carnival, who were in their majestic attire with the bejeweled diadem, saying:

"Queen Florence, the first in the name of your devoted and loyal subjects, the Queen of the Monrovia Yacht Club, I crown you as our Queen. Your delighted people know that your reign over us will bring nothing but pleasure, happiness and fun."

Your Majesty's reign, nothing shall

in any way mar its joy, but that all things may minister to your de-

light."

Owing to illness, Mayor C. F. Donald was unable to act and H. Russell Graves, his conferee in the City Council, presented the new ruler.

As a member of the Board of Trade, Walter P. Dunn invented the Queen with the sceptre that shows the force of temporal power the attribute of power and majesty.

In the meantime, the coronation was held as if it were an everyday occurrence.

Queen Florence directed her prime minister, Montavilla Flowers, to read her proclamation, which, in part, was as follows:

"To all the people of my kingdom of Monrovia, by whose choice I have been chosen Queen of the May; to all their kindred and friends to the great and the common within the states; to our neighboring cities and realms whose borders receding eastward, westward, north and south, reach the full bounds of our greatest kingdom, America, I proclaim, by my

Mothers

Women who bear children and remain healthy are those who prepare their systems in advance of baby's coming. Unless the mother aids nature in its prenatal work the crisis finds her system unequal to the demands made upon it, and she is often left with weakened health or chronic ailments. No remedy is so truly a help to nature as Mother's Friend, and no expectant mother should fail to use it.

It relieves the pain and discomfort caused by the strain on the ligaments, makes pliant and elastic those fibers and muscles which nature is expanding, prevents numbness of limbs, and soothes the inflammation of breast glands. The system being thus prepared by Mother's Friend dispels the fear that the crisis may not be safely met. Mother's Friend assures a speedy and complete recovery for the mother, and she is left a healthy woman to enjoy the rewards of her labor.

Mother's Friend is the keynote of the evening pageant had been

planned in such detail and was so intense in setting and execution that at times it make believe nature was to be surpassed and genius obscured.

When the herald's cry, "The Queen comes, the Queen comes," rang down the line of procession a queen-like atmosphere filled the hall.

The Genuine has this Label

and is Guaranteed

Only the genuine "Ponokai" Summer Underwear has the black U-shaped Concourse Bond with every article of underclothing.

They're numerous. Come and get them with any imitation. This garment is made of cotton and is guaranteed to be the real thing. Note how we seal the waistband with tape the seal comes off when the garment is washed.

All garments to be washed must be carefully provided. Let peace reign and all the country grace of knightly manners rule. Over a

fairy kingdom no queen of earth has ever ruled. For the Master of the Works has given us the secret.

"And now, indeed, my reign shall be brief and many the days before another queen shall call you from labor to refreshment. Therefore have I prepared for you rest and quiet, games of sports and a peasant life surpassing stateliness and glory. On the morrow shall I ride in state through the avenues of my kingdom, and the people will be happy and beautiful in my train, with insignia of enterprise and the motto of the laughing clown. My own empire extends from the mountains to the ocean, true allegiance to her welfare, to forever vindicate her honor, to fight for her advancement and by a noble life add lustre to her glory. These are the days of joy, all our labor shall be recreation and all the gains of trade and labor be dedicated to our common good. Let peace reign and all the country grace of knightly manners rule."

Returning to her gorgeously decked palace the Queen, assisted by her ladies-in-waiting—Miss Rita Shobe, Miss Helen Davis, Miss Zella Vining, Miss Mary L. Kishimoto—received the pledge of fealty from hundreds of her subjects and seated them right royally.

A large attendance is expected tomorrow and provision has been made for the comfort and entertainment of all who come. One of the largest contingents will be that which accompanied the Long Beach team from the beach.

## Public Service: City Hall, Courts.

### SUMMARY OF THIS DAY.

The Public Welfare Committee yesterday sat down upon Councilman Reed's proposal of revision of ordinance No. 1000, which creates a new contract to D. J. Dawson for the aqueduct mess, and condemned the manner in which the work is carried out.

The Council's Legislative Committee yesterday decided that one property owner would have to pay for a new sewer on Flower street if constructed, as all other property owners in the block have other sewer connections and are satisfied.

A special committee appointed by the City Council issued a letter yesterday to H. E. Huntington, asking him if he would consider selling to the city its street railways.

The Legislative Committee of the Council yesterday decided to recommend the appointment of a committee of nine to revise the city's building ordinances.

The city will appeal to the Supreme Court of the state against the Home Telephone and Telegraph Company for an enforcement of the license ordinance, which was virtually thrown out of the Superior Court yesterday when the defendant to the complaint was overruled.

*At the City Hall.*

## R EED'S PROJECT IS SQUELCHED.

### COUNCIL COMMITTEE SUSTAINS THE DEMAND MESS.

*After Hearing Statements from Chief Engineer, Special Counsel, City Clerks and Others, Committee Recommends Councilman's Resolution Be Not Adopted.*

Councilman Reed's first plan of having the city establish its own conveyance department for the aqueduct power work was firmly met upon yesterday by the Public Welfare Committee.

Reed some time ago presented a resolution censuring the Board of Public Works for entering into a contract with D. J. Dawson for the feeding of the aqueduct power work without having advertised for competitive bids, and declaring that the city should undertake this work itself. After the hearing yesterday, the Public Welfare Committee unanimously and emphatically voted that the resolution should not be adopted.

Following the reading of the resolution, Councilman Reed made his statement, urging that with the beginning of work on the aqueduct power project the city should install its own conveyance system, and that poor results at exorbitant prices is the result of the present system, and asserting that, in view of his efforts to secure the action of the Board of Public Works, he is awarding the contract to D. J. Dawson "as a step in the face of the Council."

Councilman Mathews replied with the statement that the aqueduct and aqueduct power work are not in the hands of the Council, but under control of the Board of Public Works, and that the Board of Public Works has no authority to take up the authority, although the suggestions of the Council were not resented.

He gave a history of the methods of handling the plan of feeding the aqueduct power plant, showing how the city first undertook the task, but found it was running up an expense that was not justified, and how it became apparent that it was necessary to have one man to do the required pumping by contract, which was followed by the awarding of the original contract to Dawson.

The first price of metals was 25 cents per pound, and every article supply went up in price, until finally the Aqueduct Advisory Board allowed Dawson to charge 20 cents a meal.

The city had an accountant go through the books of the contractor and found that the cost per cent rate was justified. The speaker showed how the new contract was made so that the aqueduct power project might carry its proper proportion of the cost of feeding the aqueduct power projects in some cases being prosecuted together—and that the Board of Public Works saw that it was necessary to have one man to do the required pumping by contract, which was followed by the awarding of the original contract to Dawson.

"This is a matter not for the City Council," said the Mayor, "and the Council should realize that the Council has its functions and duties to perform and has been exercising its best judgment and should not be hastily condemned." The board had the most contractor confidence under its observation, and is keeping the men up to standard."

Chief Engineer Mulholland also reviewed the situation, declaring that the men were not competent to do their work and other cause of their men because of the superior men, and that the pay of the laborers was increased before the raise in the price of meat was made. Four months before the men in the project were paid Mulholland 10 per cent. of the men were getting \$2 per day. When the raise was made only 2 per cent. of the men were getting \$2 per day.

Chief Engineer considered the present arrangements, stating that in judgment the city would have been sustaining a great loss had it carried on the responsibility of feeding the men. He declared that the menu for the open house declared that the menu was kept up to the standard shown. The menu was varied and considering the situation, seemed above the average of camp menus.

The Council Committee commended the showing made, and at the conclusion of the hearing, promptly voted to reject the Reed proposal.

**PREFER LARGER SEWER.**

**FLOWER STREET PROTESTS.**

Flower street between Fifth and Sixth streets has had a large sewer, which has been in satisfactory service for several years, and to which all the properties on the block were connected. Mrs. N. Pollister some time ago tore down her residence and in its place, erected a large apartment building, but was forced to leave the same, as it was too low to connect with the sewer.

Proceedings were begun to construct an eight-inch sewer, and the

project advanced to the point of posting notices of intention on the street before the other property owners awoke to the fact that it was proposed to extend the sewer, particularly for the construction of a large sewer that was giving satisfaction. The result was that there was a storm of protest before the Streets and Buildings Committee yesterday afternoon.

The investigation resulted in the committee determining that Mrs. Pollister may have the eight-inch sewer if she is willing to pay the \$2000 which it is estimated it will cost.

**WILL RAILWAY SEAL?**

**COMMITTEE WANTS TO KNOW.**

The special committee composed of Councilmen Lusk, Topham and Reed, and Citizens R. D. Wade and S. C. Graham, appointed by the City Council at the request of the Good Government Organization, to look up the subject of the proposed purchase by the city of the street railways, issued the following letter yesterday:

"Mr. H. E. Huntington: At the suggestion of the Good Government Organization, we have requested by the City Council on the 5th inst., providing for the appointment of a special committee of five members to confer with you with regard to the proposed purchase by the city of the Los Angeles street railway system. A copy of said resolution is herewith enclosed, which explains itself."

"Will you be so kind as to inform the committee at what time and convenience, whether or not you are willing to enter into negotiations with the city for the sale by you to the city of your street railway system, in accordance with the intent of said resolution, or otherwise?"

"If the proposition in any way meets with your favorable consideration, the committee will be pleased to meet with you at such time and place as may suit your convenience and pleasure for further conference and consideration."

**To Recommended Revision.**

The Legislative Committee of the City Council yesterday discussed the proposition of revision of the city building ordinances, and decided to recommend to the next session of the Council that such action be taken.

H. E. Huntington, president of the Master Builders' Association, and a delegation from this organization, appeared before the committee and asked that it be a committee for such work as possible that be given representation on it.

The Council Committee decided that it will recommend the appointment of a committee of nine to be composed of the names presented by Chief Inspector of Buildings Backus and approved by the Board of Public Works to be selected by the City Council.

Chief Building Inspector. The man approved by the Board of Public Works are A. F. Rosenheim, Octavio Morgan, R. B. Young, J. E. Martin, G. E. Smith and E. B. Hart.

It is understood that these men will serve the city on this committee without compensation.

**May Consider Concrete.**

The City Council yesterday instructed the public works to make a new plan of concrete posts for steel poles for the use of trolley and feed wires in the downtown districts. C. Habito, representing the Centrifugal Concrete Company, appeared before the committee and presented samples of concrete posts and arguments in favor of their use. The subject was referred to the Public Utilities Committee. The public works company is prepared to furnish concrete posts at the rate of \$5 each.

**Recommended Tunnel Permit.**

Recommendation that a tunnel permit for steam pipes and compressed air be granted to the city by the city council and Black Brothers for a tunnel under Fourth street to connect the two buildings of these companies was made by the Legislative Committee of the City Council yesterday. An attachment could be in the direct line of the proposed Fourth-street tunnel, the permit is to be made revocable at any time.

**Advances Parks Again.**

The Legislative Committee of the City Council took another turn at the Schuetzen Park liquor problem yesterday. The association's request for a liquor permit for Sundays at the park was denied by the Police Commissioner and the City Council for several weeks. It was laid over for a week yesterday, to ascertain the stand the Mayor would take on the ordinance which would permit the privilege desired by the Schuetzen Park Association.

After the committee meeting the Mayor said he will veto the ordinance if it is passed by the city council.

"This would open the way for many similar applications," said the Mayor, "and I am convinced the citizens generally do not want an extension of the liquor laws. I am decidedly opposed to it."

**Storm Drains Must Wait.**

The present is not an opportune time to take up the proposed 30,000,000 storm drain project was the opinion of the City Council's Legislative Committee yesterday, and the whole matter was indefinitely postponed. When the enterprise is undertaken it must be through a general bond issue, the sentiment expressed by the members of this committee.

**TEMPTED, HE FALLS.**

**RICH PACKAGE ONLY BONDS.**

The temptation was too strong, "Your Honor," Walter D. Lee, alias Charles R. Spalding, told Judge Von Weimer, who had been retained for defense. He had pleaded guilty to embezzlement and will serve fifteen months in Folsom.

The temptation which proved Dale's undoing was a package he was instructed to take to the Arcade department store from the police station. He drove himself to a park and found the package contained bonds worth \$24,000. Other packages held for Dale, Attorney Shaw, came from Folsom.

Attorney Shaw, favored by Dale, did not question his client's right to be a honest man. Deputy District Attorney Norton favored the idea, and the result is that Dale will probably be made a prison clerk.

**CITY HALL BREVITIES.**

J. W. Johnson, chief of the City Engineers' office yesterday was appointed by the Mayor as a representative of Los Angeles to the fourth national convention of the City Planning Association, which will meet in New York.

Edwin J. Becker, secretary of the Trans-Mississippi Commerce Congress, which has its headquarters in Kansas City, was a caller on the Mayor yesterday to discuss certain problems of municipal buildings.

The Board of Public Works yesterday awarded to the Llewellyn Iron Works the contract for placing ornamental lighting posts on Third avenue.

The Mercereau Bridge and Construction Company has been granted an extension of thirty days to complete the fill at the Seventh-street bridge at Wilmington. Work has been delayed by a shortage of concrete piles.

The Playground Commission yesterday appointed a special committee composed of Charles B. Raitt, Miss

Bessie Stoddart, Dr. Ernest C. Beach and Dr. C. L. Lewman to select dates to the sixth annual convention of the Playground and Recreation Association of America, which meets in Cleveland, Ohio, June 5 & 6.

The Playground Commission yesterday sent to the Harbor Commission a formal application for ample space in the proposed \$750,000 all-inclusive playground for the bathhouse, beach, playground and marine garden. The details of the plans have not yet been made.

The Muso. Paris. Walker Company has filed with the City Clerk a request that the City Council for a hearing and a hearing before the Harbor Commission where the application for a permit to bridge the allowance of the Fifth-street store, to connect the store with the building to the west, as it proposes to establish a public comfort station there.

**FLYING AT Y.M.C.A.**  
The Aerial Committee of the  
Twentieth Century Club of the Y.M.C.A.  
had an entertainment at the  
auditorium, last night, the  
feature of which was the illustrated  
lecture on "The Art of Flying," by  
Prof. H. L. Twining, which  
has been in the forefront of aviation  
matters in this section and his  
experiments with wing machines are  
developing a measure of success. His  
lecture was a comprehensive explanation  
of the principles of aviation.

**The Day After the Wedding.**  
(Chicago Record-Herald): "What-  
ever are we going to do with nine  
challenged dishes?" exclaimed the bride  
when she and the bridegroom had at  
last been permitted to look at the  
present.

"We might exchange two or three  
of them for a couple of skillets and  
perhaps trade the rest in on a sack of  
flour and a peck of potatoes."

## J. W. Robinson Co.

Broadway and Third  
Branch Postoffice—Main Floor, Rear.

Orders for card and stationery engraving entrusted to us  
will be done in the best manner known to the craft.

### Dress Goods Department

Tailored Skirts on Saturday, \$12.50.

This does not mean a selection from a limited assortment  
made up of "off" colors or slow sellers, but unrestricted choice  
of all cloths—retailing up to \$25.00; except broadcloths. A  
tremendous variety of black and white stripes, shepherd  
checks, navy blues, blacks and creams, including whipcord,  
cheviots, serges, chevrons and spangles, in solid colors and  
mixed effects. The skirts will be tailored to your measure, in  
any style you wish, and the work done under the personal  
direction of our Mr. Berk. But this price holds good, Saturday  
only, for \$12.50.

### Misses' Suit Department

One lot of percale and ginghams, dresses, full pleated skirts, striped,  
check dots and plaids, prettily trimmed sailor collars and low neck,  
short sleeves; values from \$1.50 to \$2.00. Saturday only, \$1.50; sizes  
8 to 14 years.

Another lot of elaborately trimmed lingerie dresses, of lawn, tulle,  
voile, organdy, striped and plain. Just the thing for graduation,  
confirmation and communion; size 14, 16, 18.

\$12.50 to \$15.00, for \$2.75.

\$20.00 to \$25.00, for \$12.50.

\$30.00 to \$35.00, for \$17.50.

\$35.00 to \$40.00, for \$17.50.

\$40.00 to \$45.00, for \$17.50.

\$45.00 to \$50.00, for \$17.50.

\$485.00 to \$490.00, for \$17.50.

**DAILY BEAUTY HINT:** It may seem a "far cry" from feet to complexion, but in reality the condition of the feet has much to do with the general appearance of the skin. The foot specialist explains the matter thus: "Most of the effects of the system is studied through the circulation of the blood, and when they are kept open, this helps keep the circulation in order. Bathing both night and morning will assist."

These are the days when the first winter comes into its own. The producer household gets into warm winter dresses. With the feeling that she is going well in the world she is away, she goes about her affairs. Shopping trips sometimes call at six o'clock when she returns home, but she has the freedom to find the dinner menu all ready to go, and the dessert in another. The kitchen is as happy as she and her husband are happy, for the latter has given a dinner as if it were a formal affair. Shopping trips are not stoves for a housewife, and she has had as good a time as though she were living at home where everything was done for her.

When shopping comes, and the day is over, she is still further amenable to those, by having ready a meal. No one has been obliged to make a bath, or have the dinner prepared, as if it were a formal affair. Shopping trips are not stoves for a housewife, and she has had as good a time as though she were living at home where everything was done for her.

**Young Women's Rally.** This evening at the University Methodist Church there will be a rally of the young women in the Home-Missionary Society of the Los Angeles and Pasadena districts. Plans have been made for a social party, with music, music and addresses, followed by refreshments provided by a committee of which Mrs. S. M. Kieser is chairman. A banner is to be presented to the Girls' Better Circle that has the largest membership, and a flag to the church that sends the largest delegation of young people. Mrs. J. Q. Williams, president and Miss Laura Chapman, secretary of the Los Angeles district and Miss Anna Jewish, secretary of young people's work in the Pasadena district.

#### A Charming Coat.

I like the diminutive and am glad that it has generally applied to this adorable little silk jacket, which are one of the chief distinguished features of the season's wardrobe. I saw a pretty dark blue jacket with a wide white lace hem which had a novel touch in the belt of braided strands of silk. The tunic was rounded away from the front and was shaped at the back much like that of a man's frock coat.

#### Fashion's Whispers.

The flat model handbag continues to hold sway. Novelty pumps are coming back into vogue.

#### Novelty Suit Features.

Soft milans are charming robes, new, certainly, and smart. Ribbon roses for street wear are now sold as low as 10 cents each. Novelty coats are being made full length and cut on straight lines. Suit jackets show a gradual rather than a radical increase in length.

#### Cluny lace is expected to continue a great favorite throughout the summer.

#### Lines of suits are to be slightly more shaped, following the silhouette of the figure.

#### WOMEN'S WORK, WOMEN'S CLUBS.

BY SYDNEY FORD.

Mr. Dana Bartlett is of the opinion that the name of Dead Man's Island ought to be changed before that small body of land surrounding the entrance to the Panama Canal is used as a quarantine station to receive the thousands of foreigners who will land on our shores when the Panama Canal is finished. Whereas the name is perhaps appropriate for a quarantine station, it is undesirable for a permanent residence.

Yesterday at the civics section of Ebelline, former land agent of the Southern Pacific Railroad Company, whose appearance as a witness was the cause of many speculations as to the fate of their patients in hospitals to don the most before leaving their rooms.

"The fact," said Eleanor, her mother, "is that it is a fact about which we are anxious. For that is a fact about which we are anxious."

"We are anxious," said Eleanor, her mother, "about the fact that we are anxious."

"I have a new corset, too, and money. We are anxious."

"It is a conservatively new make of corset which we are anxious to know what it is," said Eleanor, her mother.

"I have a new corset which we are anxious to know what it is," said Eleanor, her mother.

"I have a new corset which we are anxious to know what it is," said Eleanor, her mother.

"I have a new corset which we are anxious to know what it is," said Eleanor, her mother.

"I have a new corset which we are anxious to know what it is," said Eleanor, her mother.

"I have a new corset which we are anxious to know what it is," said Eleanor, her mother.

"I have a new corset which we are anxious to know what it is," said Eleanor, her mother.

"I have a new corset which we are anxious to know what it is," said Eleanor, her mother.

quite a different method, but during the past ten years there has been considerable growth in the library project, particularly in the Middle West, where notably Cleveland, Kansas City, Chicago, Des Moines and Grand Rapids have developed beautiful parks, playgrounds and boulevards. Consider to the great circle center planned for San Francisco to be completed before the Panama Exposition and pointed out the possibilities in our own city.

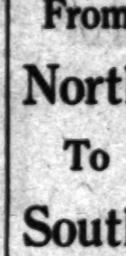

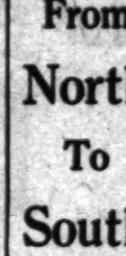

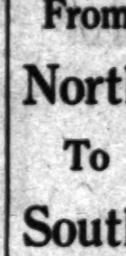

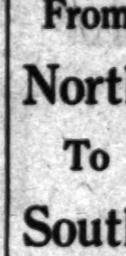

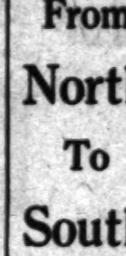

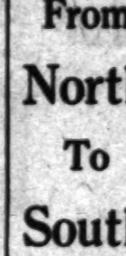

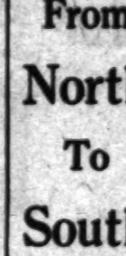

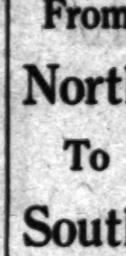

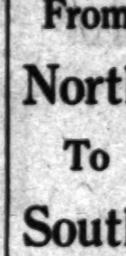

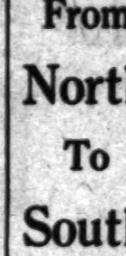

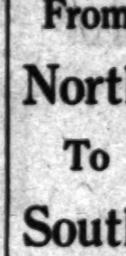

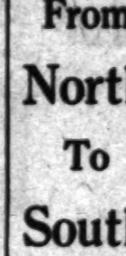

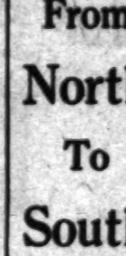

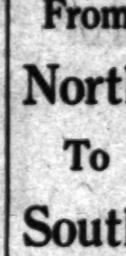

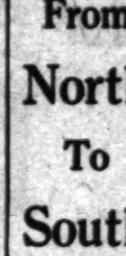

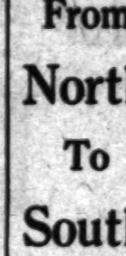

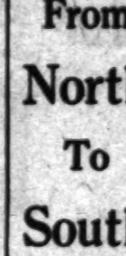

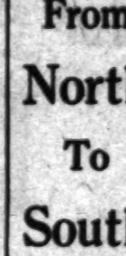

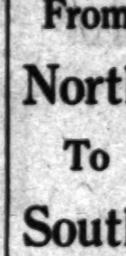

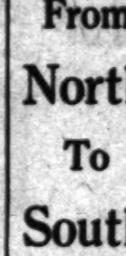

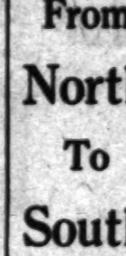

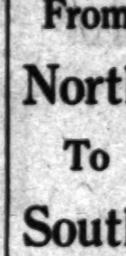

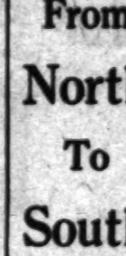

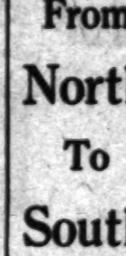

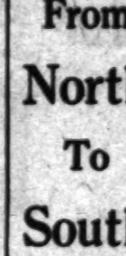

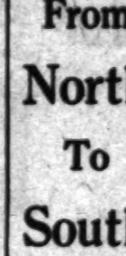

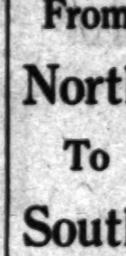

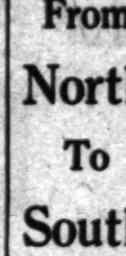

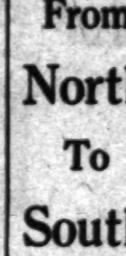

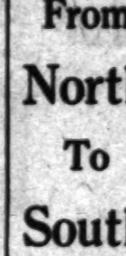

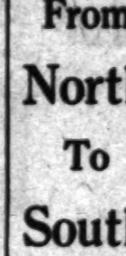

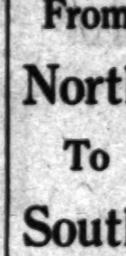

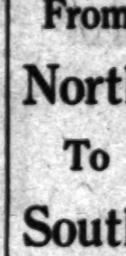

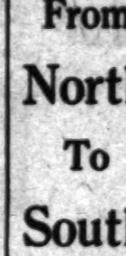

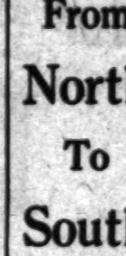

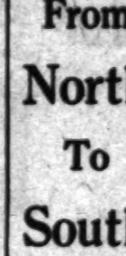

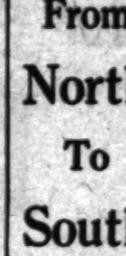

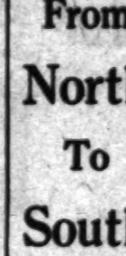

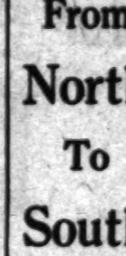

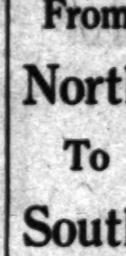

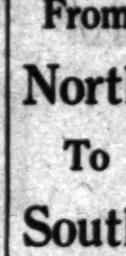

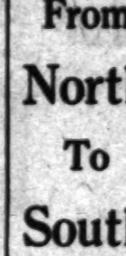

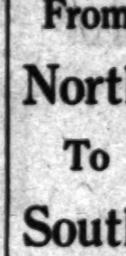

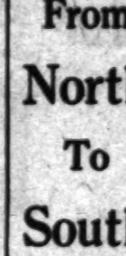

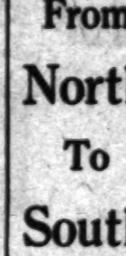

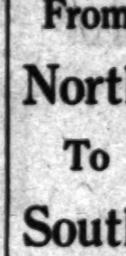

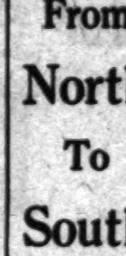

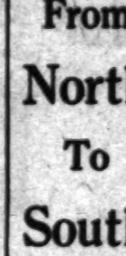

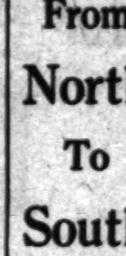

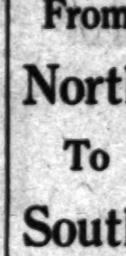

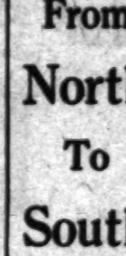

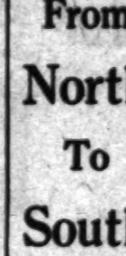

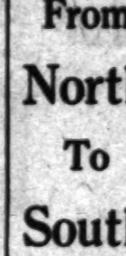

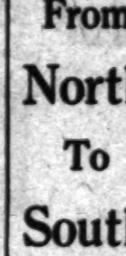

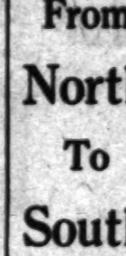

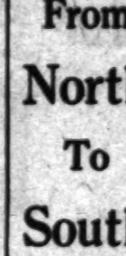

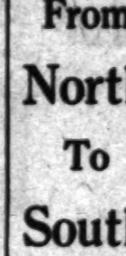

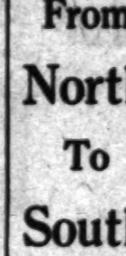

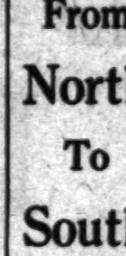

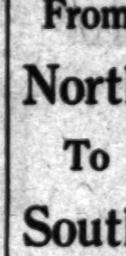

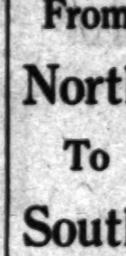

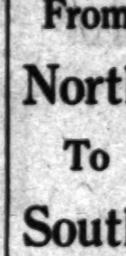

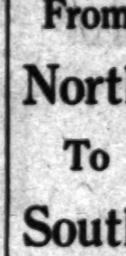

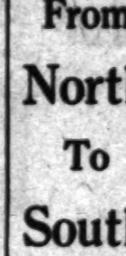

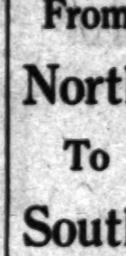

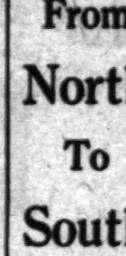

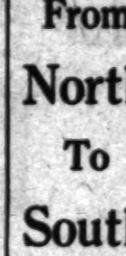

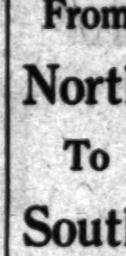

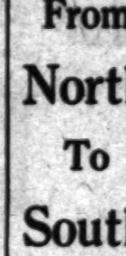

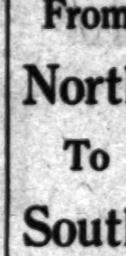

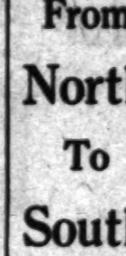

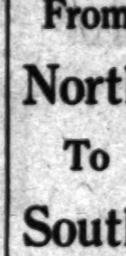

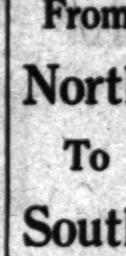

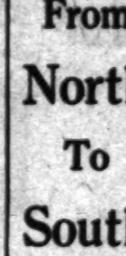

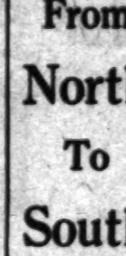

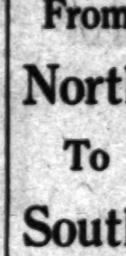

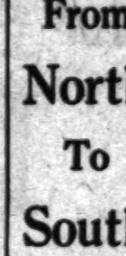

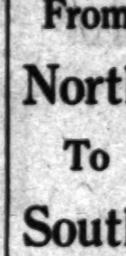

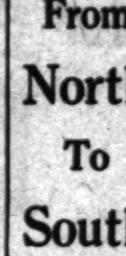

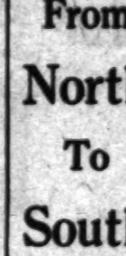

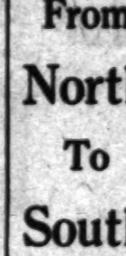

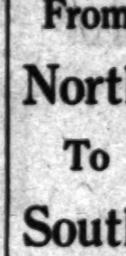

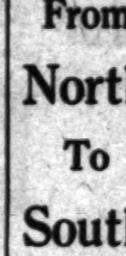

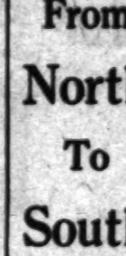

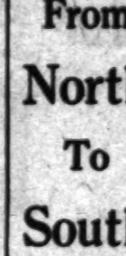

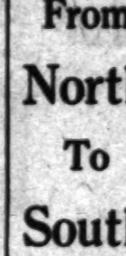

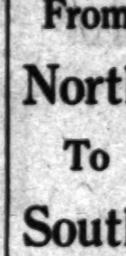

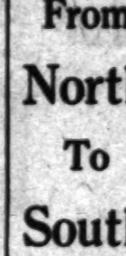

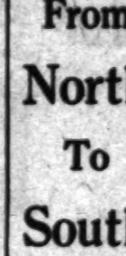

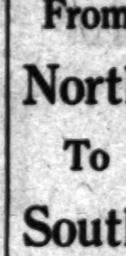

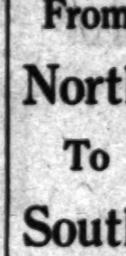

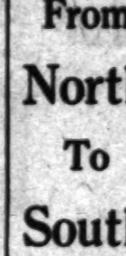

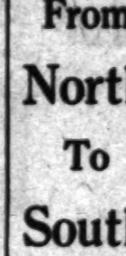

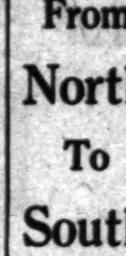

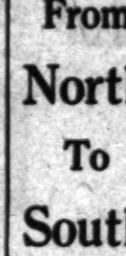

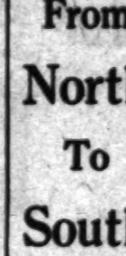

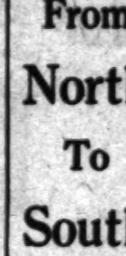

Mrs. Ward voiced a vigorous protest against placing the public library on the hill on the site of the Normal School, arguing that women who go often to the library do not fancy climbing a hill every time. She advocated placing the library at the south end of the hill, on Olive Street, and put the war buildings farther north. The library could be built to face the Normal School park and would have Central Park as a backdrop, thus situated between two parks. She favored the establishment of small civic centers in various sections of the city and thus bring the very doors of the people refining and reforming elements.

The talk then drifted to the proposed new city hall and the idea of the city purchasing the Phoenix block and converting it into a park to connect the group of municipal buildings was discussed.

**HOT WEATHER, DITTO WORDS.**

**Darrow Trial Is Torrid at the Very Outset.**

**Sharp Altercations Between Opposing Counsel.**

**Two Men Off the Temporary Panel Net Result.**

The atmosphere was decidedly heated in Judge Hutton's court yesterday during the examination of witnesses who are being qualified as jurors to try Clarence Darrow, charged with having bribed a prospective juror in the McNamara case, which was caused by weather conditions that are almost as varied as those tried to mitigate; also by myriad sharp alterations between opposing counsel.

As the net result of the day, the District Attorney succeeded in getting two men off the temporary panel who had expressed considerable admiration for Darrow and his writings. At the afternoon adjournment, the twelve men in the jury box were taken to a small hotel just west of the courthouse, to be brought into court again this afternoon.

One of the features of the afternoon session was a discussion between Rogers and Thomas Laughlin, Jr., in regard to the manner in which he would conduct the affairs of the law office. It was maintained that despite his connections and the wealth of his family he would be a fair and impartial juror to the defendant.

A lawyer called by the defense to controvert statements by the talesman proved a good witness for the State.

**DEFENSIVE BATTERY.**

The Illinois courtroom of Department of Justice Hall of Justice is not fitted to stage a sensational trial, especially when all the lawyers for the defense are setting their friends for the press box. Apparently a concerted effort was made yesterday to fill the room with friends of the accused, for every man who entered the room was cheered by clapping or substituted applause. Finally the condition became so oppressive that District Attorney Fredericks asked the court to take judicial notice of the difficulty of the defense to gain some advantage for Darrow.

"This is no vaudeville house or place of entertainment, you, honor," said the District Attorney.

"I hope the spectators will refrain from unnecessary noise."

At the noon session the court told the attorneys their seats will be reserved in the rear of the courtroom to have their friends and admirers throng the room and fill the seats of the workers.

It was made evident that labor was the chief factor in the issue of the case if the defense was to bring it about. Rogers made several indirect attacks on the Merchants and Manufacturers Association and its members.

Rogers asked Thomas Laughlin if it were not a fact the association is trying in every way to set one or more of the members of the jury, a covert maneuver by the District Attorney.

The court said "no" and the mount, "and I hope the spectators will refrain from unnecessary noise."

At the noon session the court told the attorneys their seats will be reserved in the rear of the courtroom to have their friends and admirers throng the room and fill the seats of the workers.

It was made evident that labor was the chief factor in the issue of the case if the defense was to bring it about. Rogers made several indirect attacks on the Merchants and Manufacturers Association and its members.

Rogers asked Thomas Laughlin if it were not a fact the association is trying in every way to set one or more of the members of the jury, a covert maneuver by the District Attorney.

The court said he would not pass on his qualifications until this morning.

The remainder of the afternoon was taken up with preliminary questions to Cox and Williams.

## ALL YOU NEED IS A CASCARET TONIGHT

No SICK Headache, BILIOUS Stomach, Coated Tongue or CONSTIPATED Bowels by Morning.

Turn the rascals out—the headache, the biliousness, the indigestion, the sour, sour stomach and foul gases—turn them out tonight and keep them out with Cascaret.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress.

Let Cascaret cleanse and regulate your stomach; remove the sour, undigested and fermenting food and that irritating coating mat; take the excess bile from the liver and carry out of the system all the decomposed waste matter and poison in the intestines and bowels. Then you will feel great.

A Cascaret, tonight, will surely straighten you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head and cheerfulness for months. Children love to take Cascaret because they taste good—never gripe or choke.

Now, I am determined to sell every yard of goods in my present establishment before I move into my new store, and I'm going to do it, if possible.

I've taken all limit off price reductions. I'm going to get rid of all this stock if I have to give it away. Tomorrow I will take orders for any

for \$17.50 that no other tailor would think of charging less than \$40 to \$50 for.

# Diamond's Removal Sale Drawing to a Close

Remodeling of new building is rapidly nearing completion, and this sale, the most extraordinary and sensational of the century, will soon be over. Thousands of dollars' worth of imported and domestic woolens still to be disposed of. Every yard to go irrespective of loss.

Time is getting very short now. I shall soon be in my new building at 533 South Spring Street, and my removal sale will soon be nothing but a memory, and the man who neglects this opportunity will kick himself for not taking advantage of the biggest tailoring bargain Los Angeles has ever seen.

Now, I am determined to sell every yard of goods in my present establishment before I move into my new store, and I'm going to do it, if possible.

## An Iron-Bound Guarantee That Every Garment Shall Fit

### New Spring Woolens

The stock I offer for your inspection consists of the very latest spring and summer patterns. No old design in the entire lot. Make your selection from Homespuns, Tweeds, Satins, Worsted Broadcloth, Cheviots, etc., in every color, design and pattern. No matter what you have in mind, we can certainly show it to you.

You take no chances whatever when you order from me. If I cannot fit you to my entire satisfaction, I will not accept your money. I have the best designers and cutters that money can buy, and I willingly assume all the risk of a garment not proving satisfactory. I take every order on this distinct understanding. Leave your order first thing tomorrow morning. I have engaged extra seamstresses for this sale, but there will be such a rush that my facilities will be taxed to the utmost and it will have to be a case of "first come, first served."

**Diamond Tailor**  
504 SOUTH BROADWAY.

### A Word to Our Old Customers

Our old customers are not acquainted with our new methods. We greatly appreciate it when you kindly leave us who have nearly sold on old lines for a few years. We are pleased to receive from time to time from former customers, letters of inquiry concerning quality of material we have on hand. We sincerely hope that when they return they will not consent to the two-year proposition made from Globe.

At the Hotel Adams, C. Adams placed his candidacy as a delegate from the National Republican Convention.

The occasion was a dinner given by the New England delegation to a number of leading supporters of President Taft.

Adams, however, expressed himself in an un instructed delegation.

The Arkansas Railroad Com-

pany has filed in the Arkansas Department a petition that its application for a low-grade line through the Ozarks be considered as merely suspended and not rejected. ## BIG BRAVERY, LITTLE SCARE.

MARILIAN REED, OF DOMINANT PRINCESS CECILIA.

Sold Little Lion Tamer Dared the Name of Captain Kitson and Then Came of Veterinarian Name, but Gave Out Evidently as Changes of Name.

Lion tamer, lion tamer, smiling and mischievous, she steps open with the burst of her white, the armed jaws of the great leviathan, and thrusts her hand into the raving red cavern with its threatening roars of silent teeth. With longed hand she slips the whiskered jaws of the snarling leviathan who snarls at her with vicious jaws that would sever the dainty fingers with one mauling bite. Unsheathed, she takes a club in Cincinnati, and makes some offer, while the unshamed leviathan who rules above her with overgrown claws and snarling jaws, and with a lash of her riding whip, sends them through their routine of circus tricks.

Could such magnificence during be so benumbed to fear?

Absurd. Painfully absurd.

Of course it is absurd. And when anything is so absurd that anybody can see it is absurd that nothing can be more absurd than looking into. Behind almost lies the realm of truth.

Act any other.

Princess Cecilia is at her stage name. She may be 18 and she may be 50. Those brown eyes and that brazen smile tell no age secrets. She is drowsy and languid, and the sunbeams of the day with dissolved distinction. But there is something more than a twinkle in the eyes, however, and if you notice her hand you will see that the thumb is longer than the forefinger, that indicates self-eliminating power.

Cecilia dominates the animals, and particularly those of the great cat tribe, especially lions. Her secret is this: She has learned the language of the feline through their tricks at Panhandle.

There is a story told of Cecilia and a remarkable fact; that is no secret.

Cecilia was maintaining one of her leviathans which had something akin to an ingrowing toenail. Suddenly the animal showed signs of antecedent trouble, and the animal's owner suffered from stiffness of the joints. As the dog did he has been caught a great shadow darting behind the dressing-room trunk. With a nervous start, she sprang up and ran to the shelf upon which she had been seated—then to the trunk, where, like a vivacious girl at the seaside, she sought safety beyond high water.

Well well she knew the meaning of that sitting shadow.

The experienced eye told her that only one thing in creation moves with that shadow, shadow, one-and-one-

Meanwhile the leopard was all astir.

Since the day he was dragged in the cage of the menagerie, the nature of the nervous feline had crossed his path. There was good hunting.

Like a happy kitten on the trail of a good mouse he had been lurking about the shadows.

The endgame was "terrible"—the conflict was only momentary. With his victim in his claws the leopard roared over and over of the dreams he had, happy, happy in the joy of blood.

And the Princess Cecilia stood upon the dressing-room trunk and watched the progress of the hunt until she descended until the last minute of the leopard's life. The last minute of the leopard's life told Cecilia she was gone forever.

**KELLY GOES NORTH FOR OLYMPIC HONORS.**

Fred Kelly, an all-round athlete, who shows greater promise than any ever developed in this section of the country with the possible exception of Fred Thompson, left yesterday morning for the north, where he will compete in the try-outs for the Olympic games.

Kelly has been training faithfully ever since the close of the track season, and announces that he will compete in the high hurdles and the 220-yard dash at Stanford. His last appearance was about three weeks ago when he took second to Hawkeye Johnson and defeated Benson of California.

Since then Kelly has increased his speed greatly by cutting out his monitoring with the weights and has run every fast time in try-outs on the West Coast. He is the only man independently about the slowest on the Coast and Kelly has managed to complete high sticks in 15.4 and the 220-yard dash in 22.2, which is going to be hard to beat.

He was accompanied by Manager Weston Board of U.C.L.A., who will look after his interests while up north and will be a big surprise to the followers of athletics in the south to know when he took second to Hawkeye Johnson and defeated Benson of California.

Since then Kelly has increased his speed greatly by cutting out his monitoring with the weights and has run every fast time in try-outs on the West Coast. He is the only man independently about the slowest on the Coast and Kelly has managed to complete high sticks in 15.4 and the 220-yard dash in 22.2, which is going to be hard to beat.

TACOMA TEAM ON THE ROCKS.

THE DODGERS WERE TO THE TREES.

TACOMA (Wash.) May 16.—(Executive Dispatch) Tacoma's baseball club in the Northwest League is broke. Today is pay day and there was not enough money to half pay the players. The life of the club is in great danger, and unless Tacoma fans and citizens come to the rescue, President A. W. Gilham says he will have to bring down the curtain. Both teams started the season on a losing streak and bad weather produced a deficit in the financials which the merchants and stockholders had not made up.

Today Hormel threw 3000 double tickets on the market at \$1 each, good for one grand stand admission in a hurried effort to meet the payroll, but the effort was not successful.

## COULON SETS OFFER.

NEW YORK, May 16.—(Cable) Johnny Coulon, the banjo champion, is receiving offers to sign in New York every mail from clubs' managers all over the country. Jim Coffroth and Tom McCarty, the California promoters, want him to come out there and fight. Jack McGuire of Philadelphia is seeking his services, and a club in Cincinnati has made some offer, while the Garden Athletic Club is at present trying to match him with Digger Stanley. He just arrived from Joplin.

Yankee "White Hope" Matched.

JOPLIN (Mo.) May 16.—(By A. P. Night Wire) Luther McCarty, conqueror of Carl Morris, erstwhile "white hope," was matched tonight to meet Jack Reed of Toledo, O., here in a ten-round bout. McCarty has just arrived from Joplin.

Yankee "White Hope" Matched.
